Grand Rally and Torch-Light Procession.

ONCE MORE UNTO THE BREACH.

The Republican Rally on *Tuesday* next, Oct. 28th, will commence with a Grand Torch Light Procession.

The Republicans of the city and vicinity are invited to meet at City Hall, at 6 o'clock, where the procession will be formed, and where a provision of torch-lights will be made. One feature of the procession will be a company dressed in uniformity, and wearing red shirts; but citizens generally will appear in their ordinary dress.

The Brewer Artillery will perform escort duty, and it is expected that two bands of music will accompany the procession.

About half past 8 the procession will arrive at Norombega Hall, and the meeting will be addressed by Hon. Isaac Wingate, Jr., and Wm. McCrillis, Esq., and perhaps by other gentlemen. Galleries will be reserved for the ladies.

It is not expected that there will be any illumination of buildings.

How it was Done.

Some interesting facts in connection with the late election in Pennsylvania have just transpired, tending to show that, thus far at least the Buchaniers have not got any of their victories at a bargain.

The N. Y. Post says that on a short time previous to the late election, Mr. Belmont, a connection of Mr. Slidell's, received this subscription of $50,000, the price of the mission which he now holds at the Hague; that one of the largest banking houses in Wall street was withheld the name for the present, until we can verify the intelligence from other sources; advanced $50,000 more, towards the fund for which Slidell's operations at the New York Hotel were held; and that a levy of ½ per cent was made on the salaries of every officer in the Custom House, some eight hundred in number, averaging about one thousand dollars each. At the last pay day at the Navy Yard also, it is reported, that one dollar was taken from each of the day laborers, to swell the fund which had been called for to face the exigencies of the Buchaniers in Pennsylvania. If, as is altogether probable, all the public officers have been assessed in this style, not less than a million of dollars must have been raised for the late and coming elections. We have omitted in the foregoing statement, the $20,000 and upwards subscribed by Mr. Slidell, resting at the New York Hotel, and voluntary contributions from other sources, not enumerated. It is generally supposed that not less than a quarter of a million of dollars were expended in Pennsylvania alone to secure the meagre victory, if it be a victory, which they have achieved. Our enemies in the Revolution paid $30 a head for Hessians, which was the right price high in that day, but the war against freedom now is waged upon a far more extensive and liberal scale, but, we venture to predict, with equally disastrous results.

As the field of battle clears up, and the Republicans see what exhaustible efforts the Buchaniers, with all the prestige of a perfect organization to support them, have made, to barely hold the State of Pennsylvania, they are filled with new life, and are fuller of fight than ever. They believed before, that they could carry the State; they now see exactly how they can carry it. The Buchaniers, on the other hand, have nearly exhausted their strength and their funds in winning a victory which neither inspirits them nor dispirits their adversaries. They are practically beaten, and all that it now needed is firmness, a vigorous canvass of the State by a few sensible men in each county, thorough preparations against frauds at the ballot-box, and ample facilities for bringing voters to the polls. All these precautions will be attended to, we understand, and if they are, we shall send Fremont and Dayton out of Pennsylvania with not less than twenty thousand majority.

George W. Johnson, one of the largest sugar planters on the Mississippi, below New Orleans, who died recently, has left an estate valued at not less than $700,000. He has by his will manumitted all his slaves, 200 in number. They are to be sent to Liberia in four years from his death, and each one is to be furnished with $50.

Punch says that the Board of Health is constructed of *lymph-ville*.

The people of South Carolina have returned Preston S. Brooks to Congress, and armed him with seventeen canes, a brace of pistols, a revolver, and a raw hide.

If Buchanan is elected, slab law in Congress will be considered established, and Brooks is to be made acting overseer of the House, with a body guard commanded by Keitt, and he will be on duty through the session, to "save the Union," by exercising his bludgeon upon any Northern member who may venture to say anything against the blessed institution of slavery.

Thus will perfect freedom of speech be established—as Southern men understand it and as their northern allies expound it through the Bangor Journal and other organs. It is supposed that the principle of "free speech" will in this manner be more *satisfactorily* vindicated than even in the case of Professor Hedrick of the North Carolina University, who was only expelled from his chair for the awful crime of writing a letter favorable to Fremont.

A Republican Majority in Pennsylvania. It is stated by a Philadelphia correspondent of the New York Post, that "legal votes enough are known to have been thrown for the democratic ticket, in that city alone to have changed the result entirely in the State if thrown out as they ought to have been. Probably a majority of from 5000 to 10,000 of the *legal* votes thrown in the State were for the Union ticket."

As it is, in three counties only, the Republican majority on the Congress tickets (which are the national tests) is 629, larger than on Canal Commissioner, and this difference carried through the State would give 25,000 in by 10,000 majority.

How Stand the States?

The Springfield Republican, in a very calm and candid review of a day or two since, on the Presidential prospects, presents the following facts and figures—figures which the result will prove do not lie:

Either from the positive indications of preceding elections, or the known operation of causes almost as certain, the following free States are as reasonably sure as any political event can be to vote for Fremont in November:

	Votes.		*Votes.*
New York	35	New Hampshire	5
Ohio	23	Vermont	5
Illinois	11	Massachusetts	13
Michigan	6	Rhode Island	4
Iowa	4	Connecticut	6
Maine	8	Wisconsin	5
Total	125		

Against these Mr. Buchanan will quite as surely have the entire vote of the slave States, making 120 electoral votes.

The following States are doubtful, and will decide the issue:

	Votes		*Votes*
Pennsylvania	27	New Jersey	7
Indiana	13	California	4
Total			51

Of these Col. Fremont must carry 24 votes, or Mr. Buchanan 29, in order to elect a majority. Pennsylvania alone of the four States would elect Mr. Fremont, or the other three without Pennsylvania. On the contrary, Mr. Buchanan must carry his own State and one of the other to give him an election. He can do nothing without Pennsylvania, nor with that alone. He must have at least two of the four States, and one of them must be Pennsylvania.

Good Choice. There was raised, at Passadumkeag Point, on nine and a half acres of land, by Nath'l Jones, the last year, the following crops: 40,000 lbs hay, 844 bushels oats, 200 bushels potatoes, 477 bushels carrots, 167 bushels Ruttabaga turnips, 58 bushels beets, 2760 lbs oat straw. While such crops can be raised on so small a quantity of land on the Penobscot it does not seem to be necessary for any one to undergo the expense, the risk and the fatigue of migrating to the West.

Brutal Treatment of the Kansas Prisoners.

A gentleman recently from Kansas, has just received a letter from a friend, who resides there, giving the following information relative to the situation and treatment of the unfortunate State men recently arrested by order of Gov. Geary, and delivered over to the care of the notorious Titus. They are charged with *piracy*, because some pro-slavery men have been killed by the free State men in defending their lives and their families. The letter writer says:

"One of the escaped prisoners told me that Col. Titus went round among the prisoners every morning with his revolver cocked, and threatened to blow their d——d brains out if they spoken a word. They received but one biscuit a day; one were told that they would be thankful to get even that before they got away. Digerton one of the four who had charge of the cannon and shot of person, are to be hung."

The Bangor Journal, with insulting impudence, censures the Republicans of Bangor for not attending the Whig and Democratic Lecture on Friday evening. Supposing we should notify the Republicans, Lovejoy and five "ists" to attend—how many of our brethren would give us the light of their distinguished countenances?—especially if we should charge them with robbery and swindling.

When the "official" democratic majority in Pennsylvania gets finally whittled down to its actual figure, we will inform our readers of the fact. On Saturday the "official" majority for Canal Commissioner, was reported by the telegraph as down to 2774.

The Legislature of Pennsylvania is Republican in one branch (the Senate) and Buchanan in the other, the House. So the election was a drawn battle in that respect.

A man named Church, visited Staunton Va., with a load of corn from Pendleton. He is 82 years old; and his mother aged 107, and his father aged 112 years, are both living.

The Vermont legislature have re-elected Solomon Foote to the U. S. Senate for six years.

Removed. The House of Bishops of the Episcopal Church, now in session in Philadelphia, remitted on Tuesday the sentence of suspension against Bishop Onderdonk, of Pennsylvania, pronounced some twelve years ago, his fault was an excessive use of liquors, which his physicians had prescribed as a medicine. He confessed the propriety of his sentence at the time, and has ever since passed a life of propriety and humility. His brother, Bishop Onderdonk of New York, was convicted by the House of Bishops of much grosser faults, and will doubtless remain suspended during life.

The Penobscot County Horse Fair, which is to be held at the Trotting Park in this city on Tuesday and Wednesday, Oct 28th and 29th will afford an excellent opportunity for purchasing or disposing of horses of various grades. It is expected that some of the best animals in the State will be there either for exhibition for trotting or for sale, and the show generally will undoubtedly be a good one. On Wednesday there will be interesting trial of speed for a general sweepstakes, and there will be various matches during the days of the Fair. Premiums are offered for several grades of horses, as will be seen by the bills.

Painful Accident. We learn from a correspondent at Bradford, that Deacon Robert Walker of that town, had his right arm taken off on Saturday morning, by accidentally getting it into the bearer of a threshing machine. The accident is a very serious one.

The horse-chestnut has been employed in France and Switzerland for bleaching yarn, and is said to have great power in whitening silk, wool, flax and hemp. The astringent juice is abstracted by peeling the chestnuts and then grinding or keeping them; they are then mixed with hot water, in the proportion of twenty nuts to ten or twelve quarts of water.

Installation. Rev. George W. Field, late of Brewer, Me., was installed as pastor of the Second Street Church, last week. An eloquent sermon was preached by Rev. Prof. Shepard, of this city.

Tomorrow's Procession. The Republicans of Boston are preparing for a grand torchlight Procession to come off in that city on Wednesday evening next.

Launched. In Bath, 24th, from the yard of Johnson Ricker, Esq., a fine ship of about 900 tons, not yet named.

The Recent Outrage upon Free State Emigrants.

[From the Albany Journal.]

The despatch the Atlas has is this:

SMUGGLING POWDER, RIFLES AND PISTOLS INTO KANSAS—INVADERS DISARMED—THE PEACE PRESERVED."

What immense bravery is here! Navy required in those seven hundred troops, with only six cannon, to stop this terrible invading army! This army with ten rifles! One rifle to every 26 men! And one revolver among every dozen of them! How many less than this, Gov. Geary considers the ordinary needs of emigrants, is not stated. How can the country be sufficiently grateful to the intrepid Deputy Marshal for thus keeping out of Kansas those two hundred unarmed men, those terrible women, and those invading children!

But the "invaders" were disarmed." Disarmed of weapons, by nine-tenths of them, but not of more. But they were disarmed of their "baggage." They were disarmed of their "horses" and "wagons." They were disarmed of their "provisions." Sublime strategic skill of the Seven Hundred! They knew that, if stripped and starved, women and children could not fight them.

True, Gov. Geary had given them a permit to enter the Territory." But that was a military ruse. True, Gov. Geary the week before let in a company of Missouri Riflemen armed to the teeth, and a company of Carolinians with pistol and bowie knife. But then *they* were "scum of the earth." *They* were Pro-slavery to the back bone. *They* (as not obviously endeavor to smuggle into the Territory "women" and "children" and "farming utensils."

The plain fact of the matter appears to be that Gov. Geary fitted up a party of emigrants, and that a gang of his men stole their spades, ploughs, wagons, clothes, and food. But the Atlas euphoniously styles it "disarming invaders" and "preserving the peace."

Two or three months since, in conversation with a gallant intelligent Freesoiler of Bradford county, Pa., we asked him what would be the probable vote of that county for President. He answered: "I can tell you very nearly. The total vote of our county is between eight and nine thousand; and the Buchanan, Fillmore and doubtful are just 2,100; the rest are for Fremont." The Official Canvass of the votes cast at the State Election have just come to us, and the Fremont aggregate ranges from 6,000 to 6,632, while the Buchanan runs from 1,971 up to 2,041; showing an average Fremont majority of a little over 4,000. Our letter says: "We can muster it two hundred at the Presidential election," and we trust it.

Had every county in Pennsylvania been as well organized and as well canvassed as Bradford, we should have carried the state last week by thirty thousand, and ten days hence by at least fifty thousand. Wherever an earnest and industrious canvass has been made on Republican principles, we have done nobly; where another element has shut Republicanism from public view, or no such canvass has been made, we have nothing to record but disaster.—*N. Y. Tribune.*

The Montreal Railway Celebration. The grand celebration at Montreal in honor of the completion of their line of railway communication with the west, is to take place on the 12th or 13th of November next.

At a meeting of the general committee it was voted that a sum of money be appropriated to procure statistical information in regard to the trade and manufactures of Montreal.

A meeting of mechanics, manufacturers &c., was held on Tuesday evening, at which it was voted to represent the different trades, &c., including the profession. A committee was then raised from 72 different trades, &c., including architects, engineers, soft heaters, carpenters, masons, &c., &c.

The Montreal Transcript says:

It was stated that one firm would on the occasion of the procession turn out 600 men, another 100, another 50, so that should the various firms here heartily co-operate in the movement, as we have no doubt they will, we may be sure that the turn-out will be the largest and most imposing ever witnessed in our city.—*State of Maine.*

A Financial Crisis in France.

The Liverpool Times, received by the Arabia, thus speaks of the very threatening monetary difficulties now impending in France, and which may produce another revolution:

The interest of the week centres in France. The financial position of that country is alarming, and a belief is current that the suspension of specie payments is inevitable. Public confidence is evidently shaken, and the habit of hoarding has become general. The best proof of the unhealthy condition of society. The drain from the Bank of France is serious, and much distress has arisen from the absence of a silver coinage to meet the requirements of society. France is rapidly drifting, towards a panic, and a financial writer of authority gives this gloomy view of things:—"A few days will determine whether the evil is about to assume fatal proportions. Should the next week pass quietly over, as to allow the more favorable accounts from Germany and China to produce an effect, while the high rate of discount is checking importations and industry, sales of produce and manufactures, the crisis will perhaps be found to have been surmounted. If this result should not be witnessed, and the people in blind confusion should still rush to the bank, there can, of course, be no determination other than a suspension of specie payments. At present the Emperor is said to have an insurmountable aversion to a suspension of cash payments."

The long absence of the Emperor from Paris has added to the complications, and as Louis Napoleon is considered to be himself the government, this unfortunate condition of things sorely impeils his popularity. In fact, matters appear to have come to such a pass in the French metropolis that nothing which can possibly occur there will occasion surprise. Hitherto the genius of the Emperor has proved strong enough for any emergency, and the present is the time for testing the strength of his reputation. Never since the coup d'etat was he in such peril.

Slavery Fitting Out at New York—The Huntington Forgeries. *New York, Oct. 23.* The Tribune has information from Custom House officials to the effect that several slavers are being fitted out at this port, to take advantage of Gen. Walker's recent decree permitting slavery in Nicaragua.

The amount of forged paper issued by Huntington, as far as identified already, reaches to nearly $650,000; A further amount of about $80,000, will be brought forward to-day.

A Jady of Newark, N. J., stepped into Tiffany & Young's jewelry ware rooms, in New York, the other day, and asked to see some bridal presents. She was asked whether she wished to purchase or hire, and was rather nettled at the latter proposition until she was informed that the establishment let out a fine display of "presents" for a reasonable amount. She was established to learn that many of the tempting displays made at the mansions of folly as presents from friends to the bride, had been hired for the occasion.

The Magazine Pistol. The magazine pistol is a new device in the use of fire-arms. From the description given, it appears that this pistol is so constructed that after being charged with cartridges as it can be fired fourteen successive times, as fast as the hammer can be cocked and the trigger pulled, placing it far ahead in capacity of any fire-arm of the same size ever invented. The revolving block and magazine can also be attached to a musket, fowling-piece or rifle, giving them a capacity to fire sixty successive charges, with all the certainty and exactness that they can now fire a single charge.

Calling the Roll. The point made by a speaker in New York the other day was not a bad one. "Soon," said he, "boys of this the time would come when he could call the roll of his slaves in the shadow of Bunker Hill Monument. The time has come—Mark Hopkins calls: 'Rufus Choate,'—'*there*.' B. F. Hallet,'—'*there*.' Charles G. Greene,'—'*there*.' C. H. Pearson,'—'*there*.' Shouts of laughter followed this list, but there is a melancholy moral in it. It is *true*.

The Syracuse and Binghampton Railroad was sold at county seal on the 10th inst., on a mortgage foreclosed by bondholders. Only two bidders appeared, viz: Thomas T. Davis and Hamilton White, and to bids started at $650,000 and run up to $1,320,670—when it was struck off to Mr. Davis, as agent for the first class bondholders. It is understood that a new company will be formed to run the road, and eventually to ext nd it to Oswego.

To be Killed. An Irish girl of more than ordinary intelligence, employed as a Domestic in a Republican family in this city, says that if Fremont is elected *the Irish will be killed!* This is the doctrine taught by the democrats to the Irish.—*Manufacturer American.*

Missing. On the night of the 21st inst., two men left Carver's Harbor, Vinal Haven, in an open boat for Deer Island, since when they have not been heard from, and fears are entertained that they are lost. TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Political News.

LANCASTER, Oct. 25.

The American Executive Committee of Lancaster County met to-day. The attendance was large. The Union Electoral ticket, headed by Millard Fillmore adopted by the Union Convention at Harrisburg, was ratified with the greatest enthusiasm. The Union sentiment among the 20 thousand men of Lancaster County was very strong.

HARRISBURG, Oct. 25.

The entire vote of the State for Congressmen has been received, showing a small Democratic majority.

Mysterious Disappearance.

NEW YORK, Oct. 25.

William A. White, formerly a well known citizen of Williamstown, Mass., but lately of Madison, Wisconsin, has disappeared in a mysterious manner. He left Madison to attend the State Fair at Milwaukie, since which, grounds of his week, nothing has been heard from him.

The steamship Texas, Capt. Forbes, left this harbor at 3 o'clock for San Juan, with about for thirteen passengers.

Post Office Clerk Arrested.

BUFFALO, Oct. 25.

D. B. F. Fellows, Clerk of the Post Office, was arrested this morning on complaint of Major Haight, Post Master, who charges him with missing letters passing through his hands.

Heavy Failures in New York.

NEW YORK, Oct. 25.—It is reported on change to-day, that T. Pirsy & Co., produce dealers, have suspended payment; liabilities $60,000. It is also rumored that a house in the provision trade has suspended, with liabilities of $500,000.

Fire at St. John's, N. F.

ST. JOHNS, N. F., Oct. 22.—A fire broke out in this city to-day, destroying over one hundred tenements. Loss about $50,000.

Further from Nicaragua.

A despatch of the 6th, from New Orleans, says:

The special correspondent of the Picayune writing from Grenada, says that the total loss of the combined league against Walker at the battle of Masaya, was seven hundred killed and wounded. This was the most desperate battle of the war, although at Grenada the enemy was also roughly jostled with severe loss. Among those who are reported to have fallen at the battle of Masaya was Gen. Mendez.

Col. Wheeler, the American Minister, was lying ill of apoplexy at Grenada.

THE GREAT FINANCIAL FRAUDS.—The public mind is as much occupied with politics, that little attention has been given to a series of remarkable financia frauds that have lately been brought to light in Europe and the United States. The forgeries of Huntington, the Baker, are estimated to amount to $400,000, of the former himself states, with much bombast and naivete, that he does not suppose his operations will exceed half a million.

A number of French gentlemen have recently arrived here from their native country, the object of their departure being that they had called the Northern Railroad Company of Canada some 3,000,000 francs. They have also arrested and lodged in the Toombs.

The plunder obtained by the President, Secretary and Directors of the Royal British Bank, is reported at the moderate sum of £30,000, equal to only $750,000. This was almost artistically executed in all the schemes of fraud and breaches of trust which stain the records of the present season. Some of the officers and officers were members of Parliament. They left the funds of the bank to themselves, which they were by law prohibited from doing. One gentleman took £250,000, another $150,000, and one mean fellow (which was enough for a dozen of only $35,000, which he failed to return. Such instances being only violations of trust, and accidences, the operators had no fear of the latter, as Messrs. Sir John & Peel, who were last year convicted of embezzling the deposites and sentenced to be their friends. The stockholders of the bank are stripped of the value of their shares, but there seems to be no mode of punishing the depredators. A special act of Parliament is necessary to meet such cases, and it is presumed that one will be passed.—*N. Y. Courier.*

AN ACCIDENT.—While Mr. Cousins, the Mantua, was endeavoring to clear the crowd from the judge's stand yesterday afternoon, a horse kicked and struck a lady named Mrs. Partridge, a severe blow in the face, breaking her nose, and otherwise injuring her.—*State of Maine Item.*

FIRE.—A dwelling house and out-buildings owned by a Mr. Dorr, of Columbia, were destroyed by fire on Thursday last. Loss $1000. We do not learn the particulars or that there was any insurance.—*Machias Union.*

AMBROTYPES!

Rooms---No. 1 Main Street.

THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and spacious suite of Rooms in the city for making Ambrotypes.

The genuine Ambrotype, (among other things that distinguish it from all other pictures) is taken upon fine plate glass, upon which is placed a proper quantity of gum, thus securing it from dust, dampness, or liability to damage from any source. The pictures are not reversed, also free from that unpleasant reflection peculiar to the Daguerreotype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve, can have them copied by this process.

The public are respectfully invited to examine the pictures at our rooms.

Entrance next door North of No. 1 Main Street.

N. B. The genuine Ambrotype can be obtained only at our Rooms.

Worth Reading.

AYER'S CHERRY PECTORAL,

FOR THE SPEEDY CURE OF

Colds, Coughs, and Hoarseness.

Bangor, Me., 20th Dec., 1855.

Dr. J. C. AYER: I deem it but a just tribute to the skill and virtues of your Cherry Pectoral, to say that for Colds, Hoarseness, Influenza, and the consumptive symptoms caused by Colds, Coughs, or Chronic Throat Affections, it is certainly the best remedy I have ever used in my family practice, and my family for the last four years has always relied upon it to relieve and cure them when afflicted with any of the above complaints. With a full conviction that it is the best remedy for Colds, Coughs, &c., I should not hesitate to pay twenty-five dollars for a bottle of it when it could not be had for less money.

Yours, EBEN KNIGHT, M. D.

AUBURN, MOWLES, Esq., of Utica, N. Y., writes: "I have used your Cherry Pectoral in my family ever since you introduced it, and believe it the best remedy for Colds, Coughs, &c., I am acquainted with. I would not be without it if it could be had for twenty-five dollars for a bottle, if I could procure no more at any price."

Croup, Whooping Cough, Influenza.

Brighton Area, Lowell county, Mass., Feb. 7, 1856.

DR. AYER: I will cheerfully certify that your Pectoral is the best remedy we possess for the cure of Croup, Cough, and, he ghost diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

Yours, JOHN M. GORKLIN, M. D.

AMOS LEE, Esq., Mentenery, Tennessee, 3d June, 1856, had a bad cold, with influenza, which confined me to my room six weeks. Your Pectoral, by the 2d dose, relieved me, and in less than a week I was about my business. I believe it saved my life, and that it will cure any cough, cold, or throat disease, if taken in season. I feel it to be my duty to make these facts known, that others may be benefited. Your medicine are the cheapest as well as the best we can buy, and we esteem you benefactor and your medicine, as the poor may be found."

Asthma or Phthisic, and Bronchitis.

SPALDING'S MANCHESTER, N. H., Feb. 4, 1856.

SIR: Your Cherry Pectoral is the best remedy for Asthma or Phthisic, and Bronchitis, that I have ever known. Every member of my family has used it for the worst symptoms of consumption, and in each case it has relieved and cured in a much shorter time than any other remedy we have ever used. Your Pectoral is the best medicine for children we can buy, and we esteem you benefactor and your medicine, as the poor may be found.

Yours, A. A. RAMSEY, M. D., Agent, Manchester Co., Iowa.

Having used your Cherry Pectoral in my practice, I can say that it is the best remedy for Coughs, Colds, Consumption, and Throat and Lung Diseases, that I am acquainted with. I have found it reliable in the cure of the following complaints, viz: Influenza, Whooping Cough, Croup, Asthma, Bronchitis, Hoarseness, Loss of Voice, Pain in the Side, Breast, and Lungs, Difficult Breathing, Night Sweats, Spitting of Blood, and Consumption in its first stages. It will relieve the most distressing paroxysms of Coughing in Consumption, and in many cases will cure them. I have also found it a safe and reliable remedy for Whooping Cough, Croup, and Influenza, and for Children it is the best medicine we can use. Indeed, I consider it the best remedy we have for all Throat and Lung Diseases, and public speakers will find relief by its use. Public singers will find it to relieve Hoarseness, and restore the voice when all other remedies fail. Clergymen, who have Bronchitis, will find speedy relief by its use. In fact, in all Pulmonary complaints, it is the best remedy we have ever used, and we can recommend it with confidence to the public.

Yours, etc., H. H. HAYDEN, M. D.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IT is not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make neither water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and in large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

FOR

Purifying the Blood, removing all diseases arising from Vices of Mercury, erroneous and impru-dence in life, for the constitutional disease arising from an impoverished state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

IT is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and proved the most salutary and beneficial effects. Numerous cases have been referred from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which, of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different manipulations in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently must be injured, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is the result, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil alluded to, have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations with which I am acquainted. Two table spoonfuls of the Extract of Sarsaparilla added to a pint of water is equal to the finest diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

Professor Humphrey's SPECIFIC Homœopathic Medicines,

FOR

Families, Travelers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life. The Subscriber has not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Fever, Worm Complaints, Diarrhœa, &c., but also for those more sudden and violent diseases which require to be met on the spur of the moment, such as Cramp, Cholera, Dysentery, Inflammation, &c., for which treatment it is very important always to have the proper remedies on hand. There are also remedies for those more delicate Female derangements which a lady finds it so difficult to disclose, but yet to a freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 30 or 40 Pellets, and 15 boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet, &c., necessary for a cure. Cases, also, containing four or six of the small boxes, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homœopathic Medicines.—In preceding other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa, or fever; and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and he or she able to use them with benefit and precision, without that labor and study which the business man is so ill able to bestow, and without that research and examination which, to the mother, nurse, or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.
